To Whom It May Concern in Support Of Zeus Electric Chassis, Inc.,

Hutchinson Industries, Inc., designs, manufactures, and sells mobility products such as light-weight aluminum two-piece and one-piece wheels, runflat devices for all size vehicles and performance specifications, internal dual-sided beadlocks, wheel covers, wheels with integrated CTIS valves, tracked vehicle road wheels, Tire Saver Shield™ to prevent sidewall punctures, Safetank light-weight self-sealing fuel tanks and complete wheel assembly solutions for top performing mission-critical vehicles.

As an ISO 9001-2015 Certified Company and the premier manufacturer of engineered mobility components for vehicles within the defense, security and commercial industries, Hutchinson protects some of the most important vehicles in the world. Troop carriers, fuel delivery trucks, public transportation, security armored and off-road vehicles such as wildland fire trucks use our products to get through the harshest of situations. Hutchinson provides innovative products and proactive support that exceeds our customers' expectations and meets the demands of tomorrow's lighter and more survivable vehicles.

We are more than happy to add Zeus Electric Chassis to our list of strategic OEM partners. Hutchinson is committed to their success and has offered our design and manufacturing expertise on the initial prototype build. As an extension of their Engineering Team, Hutchinson provides the best solution to Zeus' performance specifications. We will continue to support their efforts until serial production and beyond as we believe electric powered vehicles will revolutionize many industries and change off-road mobility as we know it. This is an exciting time and Zeus is only scratching the surface on the potential of their Technologies.

Sincerely,

Mark VanDrie
